Objective

The International Conference on Building Envelope Systems and Technologies (ICBEST) provides a worldwide forum for the exchange of information and discussion of recent developments in, and applications of, building envelope engineering.

Conference Venue

The conference will be held at the Westin Bayshore Hotel in Vancouver, the host city of the 2010 Winter Olympics, which is easily accessible through many international airports.

Conference Publications

A volume of all the abstracts will be available, as part of the conference proceedings. Also, prior to the conference, abstracts will be posted conveniently in Web site for the easy access. All invited and selected papers will be peer reviewed for possible publication in journals such as: Building Environment Journal, Journal of Building Envelope and Thermal Insulation and Journal of Architectural Engineering.

International Scientific Committee (Preliminary)

Andrew Wolf, Belgium
Xudong Yang, China
Hans Gerhardt, Germany
Massimo Colombari, Italy
Kwang Seop Chung, Korea
John Sutherland, New Zealand
Terje Jacobsen, Norway
Edward Mathews, RSA
Ana-Maria Dabija, Romania
Jonathan Sakula, UK
Patrick Ryan, UK
Tony Woods, UK
Yan Chen, USA

Conference Scope

ICBEST scope is to bring together engineers, architects, scientists and practitioners with a common interest to promote new knowledge and practice of building envelope systems and technologies. Parallel session format for presentation of papers will be organized. Topics of interest include (but not limited to) building envelopes such as Roofing System; Wall Assembly; Windows/Glass Cladding; and their interaction with environmental forces such as Wind, Temperature, and Rain.

Call for Abstracts

Prospective authors are requested to submit a 500-word abstract. Please visit www.icbest.ca for abstract submission.

Up-to-date future announcements will be available at www.icbest.ca, along with format for paper submission, information on accommodation, registration procedures and booth availability for display.
